TRYPILLIA RESEARCH DECOLONISATION	13
1. Modern Trypillia Transformation research: decolonising through new research concepts, methods and results	15
<i>Johannes Müller</i>	
MAIDANESTSKE AND SINYUKHA REGION (REGION A)	21
2. Report on the fieldwork of 2016 in the Trypillia mega-site Maidanetske: Investigations on the development and internal structuring	23
<i>Robert Hofmann, Johannes Müller, Wiebke Kirleis, Mykhailo Videiko, Hans-Rudolf Bork, René Ohlrau, Natalia Burdo, Liudmyla Shatilo, Vitalii Rud, Stefan Dreibrodt, Knut Rassmann, Mariia Videiko</i>	
3. Geophysical Investigations at Maidanetske	107
<i>Natalie Pickartz, Tina Wunderlich, Erica Corradini, Knut Rassmann, Dennis Wilken, Wolfgang Rabbel</i>	
4. Geoarchaeological analyses on daub pieces from Maidanetske – A treatise on reconstructing burning temperatures of houses and daub processing	115
<i>Stefan Dreibrodt, Sarah Martini, Robert Hofmann, Marta Dal Corso, Wiebke Kirleis, Johannes Müller</i>	
5. The geoarchaeological record of the Chalcolithic Trypillian mega-site Maidanetske, central Ukraine	137
<i>Stefan Dreibrodt, Sarah Martini, Robert Hofmann, Marta Dal Corso, Wiebke Kirleis, Johannes Müller</i>	
6. Worked osseous materials from the site of Maidanetske: is that all there is?	157
<i>Andreea Țerna</i>	
7. Plant economy and local environment at the Trypillia mega-site Maidanetske from botanical macro-remains	167
<i>Marta Dal Corso, Wiebke Kirleis</i>	

8. X-Ray computer microtomography (XRay-μCT) as a fast non-invasive technique for compositional studies of burnt prehistorical materials: results and implications from burnt daub at Maidanetske, central Ukraine	191
<i>Stefan Dreibrodt, Christopher Heilmann, Marta Dal Corso, Pia Bodden, Robert Hofmann, Mykhailo Videiko, Johannes Müller, Wiebke Kirleis, Astrid Holzheid</i>	
9. Archaeozoological and taphonomic examinations carried out on faunal remains from Ukrainian-German excavations at Maidanetske from 2013 to 2016	217
<i>Norbert Benecke, Robert Hofmann, Mykhailo Videiko, Johannes Müller</i>	
10. The contribution of Chalcolithic terrestrial snail shells from Maidanetske to environmental reconstruction	251
<i>Frank Schlütz, Marta Dal Corso, Wiebke Kirleis</i>	
11. Before Talianki: large Trypillian sites built before the largest mega-sites in the Sinyukha basin	257
<i>Robert Hofmann, Liudmyla Shatilo</i>	
12. What was the significance of small Trypillia settlements? Report on a test excavation in Moshuriv 1, Sinyukha river basin, Ukraine	309
<i>Robert Hofmann, Liudmyla Shatilo, Mykhailo Videiko</i>	
13. Trypillia mega-sites vicinity: the chronology of several small sites of the Southern Buh left bank region	323
<i>Mykhailo Videiko, Vitalii Rud, Robert Hofmann, Vladyslav Chabaniuk</i>	

VOLUME II contains a further 8 chapters, organised into the following sections:

BUG-DNIESTER INTERFLUVE (REGION B)
PRUT/DNIESTER INTERFLUVE (REGION C)
TRYPILLIA MACROSCALE
CONCLUSION

Contents

BUG-DNIESTER INTERFLUVE (REGION B)	7
14. Tracing Trypillia transformations in the Southern Bug-Dniester interfluve: archaeological investigations in the Kryzhopil region, Ukraine	9
<i>Vitalii Rud, Robert Hofmann, Viktor Kosakivskyi, Olha Zaitseva, Johannes Müller</i>	
15. Miniature ceramic items from Trypillia settlements of South-East Podillia	129
<i>Natalia Burdo, Vitalii Rud, Robert Hofmann</i>	
PRUT-DNIESTER INTERFLUVE (REGION C)	155
16. Pits as durable narratives – Results of the 2019 excavation campaign in the Trypillia settlement Stolniceni 1, Moldova	157
<i>Stanislav Țerna[†], Andreea Țerna, Robert Hofmann, Mariana Vasilache, Marta Dal Corso, Yevhenii Sliesariiev, Wiebke Kirleis, Johannes Müller</i>	
17. Putinești 3 and Trinca-La Șanț: archaeomagnetic investigation of middle and late Trypillia settlements in Moldova	215
<i>Robert Hofmann, Stanislav Țerna[†], Liudmyla Shatilo, Vitalii Rud, Ghenadie Sîrbu</i>	
18. Trypillia settlements after mega-sites: Archaeological and geophysical Investigations in the Cunicea micro-region, Prut-Dniester interfluve	253
<i>Stanislav Țerna[†], Robert Hofmann, Liudmyla Shatilo, Vitalii Rud</i>	

TRYPILLIA MACROSCALE	297
19. Radiocarbon dating: Trypillia detailed chronology, house duration estimates and the contemporaneity of earliest European mega-sites	299
<i>Johannes Müller, Robert Hofmann, Wiebke Kirleis, Liudmyla Shatilo, Frank Schlütz, Mykhailo Videiko, Vitalii Rud, Stanislav Terna[†], Andreea Terna</i>	
20. Ring-shaped settlement plans and Trypillia population agglomeration	375
<i>Robert Hofmann, Liudmyla Shatilo, Knut Rassmann, Vitalii Rud, Stanislav Terna[†], Stefan Dreibrodt, Vladyslav Chabaniuk, Wiebke Kirleis, Johannes Müller</i>	
21. Transformations of Trypillia settlements	423
<i>Johannes Müller, Robert Hofmann, Wiebke Kirleis, Liudmyla Shatilo, Frank Schlütz, Marta Dal Corso, Stefan Dreibrodt, Mykhailo Videiko, Vitalii Rud, Stanislav Terna[†], Andreea Terna</i>
